

Reliability, Service, Peace of Mind

SteakStar

SPECIFICATIONS

Steakstar

Blade 2 x 48
 Power: 240/50Hz
 Max Product: 240x25mm
 Weight: 35Kg
 Motor: 370W
 Dimensions:
 L450xH380xW340mm

Benefits

The SteakStar is a heavy duty gear drive unit designed to tenderise or knit meat or poultry, producing fillet results from cheaper cuts of meat. With 180 micro cuts per square centimetre and a 1/2HP heavy duty motor, the Steakstar is a hard-working, heavy duty machine without an annoying flimsy plastic cover.

Features

- Gear Drive
- Opening 240mm x 25mm
- Full stainless steel construction
- 180 cuts per square cm
- Safety protection microswitch
- Stainless Steel replaceable blades
- Optional Stripcutter units available
